OBJECTIVE

Motivated Bachelor of Computer Applications (BCA) student focused on Android application development and web development. Hands-on project experience building Android applications with Kotlin, XML and Firebase, along with web-based systems using PHP, MySQL, HTML, CSS and JavaScript. Seeking an entry-level opportunity to apply practical development skills, contribute to real-world software projects and continue learning modern technologies.

PROJECTS

ElectroHub – Android Shopping Application

Technologies: Kotlin, XML, Firebase Authentication, Cloud Firestore, Glide, Cloudinary

- Developed an Android electronics shopping application with separate User and Admin applications.
  - Implemented product and category browsing, product details, search, cart and wishlist functionality.
  - Integrated Firebase Authentication for user sign-in and Firestore for cloud-based application data.
  - Added admin-side product, brand and category management, and a Smart Best Picks experience.

Garage Management Application – Patel Auto Garage & Consultancy

Technologies: Kotlin, XML, Firebase Authentication, Cloud Firestore, PDF generation

- Developed an Android garage-management application for maintaining customer, vehicle and service records.
  - Implemented bill generation with unique bill numbers and PDF bill/receipt creation.
  - Included payment-status tracking such as Pending, Partial and Fully Paid.
  - Added owner/business settings and WhatsApp sharing support for customer communication.

Smart Parking Management System

Technologies: PHP, MySQL, HTML, CSS, JavaScript, XAMPP

- Developed a web-based parking management system designed for office and corporate parking facilities.
  - Implemented Admin, User and Watchman modules for managing parking slots, users, vehicles and bookings.
  - Added slot availability display, booking management and QR-code-based payment workflow.
  - Generated parking receipts in PDF format and supported vehicle entry/exit management.

TECHNICAL SKILLS

Android Development	Kotlin, XML, Android Studio, Firebase Authentication, Cloud Firestore
Programming Languages	C, C++, Java, Python
Web Technologies	PHP, HTML, CSS, JavaScript
Databases	Firebase, MySQL, MongoDB, SQL Server
Tools & Platforms	Android Studio, XAMPP Server, GitHub

DRASHTI LIMBASIYA

ANDROID APPLICATION DEVELOPMENT | WEB DEVELOPMENT

EDUCATION

QUALIFICATION	INSTITUTION / BOARD	YEAR	ACADEMIC DETAILS
BCA (Pursuing)	Veer Narmad South Gujarat University (VNSGU)	2024–2027	Semester 4: 9.55 CGPA Semester 3: 9.27 CGPA Semester 2: 9.18 CGPA Semester 1: 8.91 CGPA
HSC	Gujarat Secondary and Higher Secondary Education Board	2024	91.14%
SSC	Gujarat Secondary and Higher Secondary Education Board	2022	83.17%

CORE COMPETENCIES

- Android application development and mobile UI implementation
- Web application development and database fundamentals
- Logical thinking, debugging and problem-solving
- Understanding application workflows and user requirements
- Self-learning, adaptability and willingness to learn new technologies

DEVELOPMENT KNOWLEDGE

• Android: Familiar with building native Android application screens using Kotlin and XML, connecting apps to Firebase services, and implementing common app workflows.
• Firebase: Familiar with Firebase Authentication and Cloud Firestore for user authentication and cloud data management.
• Web: Familiar with PHP-based web application development, MySQL database connectivity and front-end technologies.
• Project Workflow: Experience working with project requirements, UI implementation, testing, debugging and documentation.

PROFESSIONAL INTERESTS

Android Application Development • Web Development • Mobile Application Development • Firebase-Based Applications • UI Implementation
